PROJECTS

ECOMMERCE

An Ecommerce Web App

- Developed a fully interactive and responsive Fullstack Ecommerce web application built with the MERN stack, and Redux Toolkit for efficient state management with payment feature.
- Implemented a Server-side RESTful API for Fetching Data, User Authentication and Placing Orders using Node and Express and used MongoDB for storing data.
- Integrated payment gateway using StripeJs.
- <https://primartad.vercel.app>

CHATAPP

A Realtime Chat Web App

- Developed a fully interactive and Realtime Fullstack Chat web application built with the MERN Stack, and Redux Toolkit for efficient state management.
- Implemented Realtime chatting feature using SocketIO.
- Implemented a Server-side RESTful API for Fetching Data and User Authentication using Node and Express and used MongoDB for storing data.
- <https://chat-app-mern-frontend-mocha.vercel.app>

WEATHERLY

A Weather Forecasting Web App

- Developed a weather app that displays the weather conditions of the desired location using OpenWeatherMap API.
- Implemented responsive design to enhance the user experience on all devices (mobile, tablet, laptop etc.).
- <https://weatherly-zeta.vercel.app>

CRYPTOVERSE

A Cryptocurrency Tracking Web App

- Developed a cryptocurrency tracking app that provides the current rates of all known cryptocurrencies.
- Implemented using CoinGecko API. It also displays the price history of these currencies in daily, weekly or monthly time intervals.
- <https://cryptoversead.vercel.app>

DISNEY+ UI CLONE

A Disney+ UI clone Web App

- Developed a fully interactive and responsive multi-page Disney-plus clone using ReactJs, Redux Toolkit for efficient state management.
- Implemented features such as User Authentication, Data Storing and Fetching using Firebase.
- <https://disneyplusclonead.vercel.app>

DASHBOARD

An Admin Dashboard Web App

- Developed a fully interactive and responsive Admin Dashboard using ReactJs and Redux Toolkit for efficient state management.
- <https://dashboard-react-ad.vercel.app>
